**Summary:** This document provides basic information about the extension called **Delta tool**.

## Extension ID

`com.castsoftware.deltatool`

## What's new?

Please see [Delta Tool 1.0 - Release Notes](#) for more information.

## Description

### In what situation should you install this extension?

This extension provides the automated generation of a report for the consistency snapshot executed after the upgrade. It identifies any variations that may exist in the post-upgrade snapshot and provides a link to an explanation for this variation in the documentation when available.

## CAST AIP compatibility

This extension is compatible with:

CAST AIP release	Supported
8.3.x	✓
8.2.x	✗

## Supported DBMS servers

This extension is compatible with the following DBMS servers:

CAST AIP release	CSS	Oracle	Microsoft
All supported releases	✓	✗	✗

## Prerequisites

An installation of any compatible release of CAST AIP (see table above)
