**i** **Summary:** this page describes the new features and bugs that have been fixed in the CAST Security Dashboard 1.6.0.

## Content matrix

Version	Summary of content
1.6.0	<ul style="list-style-type: none"><li>• <a href="#">Ability to add CISQ/OWASP/CWE related tiles in conjunction with the Quality Standards Mapping extension (com.castsoftware.qualitystandards)</a></li></ul>

## New features

### SCRAIP-32181 - Ability to add CISQ/OWASP/CWE related tiles in conjunction with the Quality Standards Mapping extension (com.castsoftware.qualitystandards)

It is now possible to add CISQ/OWASP/CWE tiles that show the number of violations for rules tagged as follows:

- CISQ-Security
- CISQ-Maintainability
- CISQ-Reliability
- CISQ-Performance-Efficiency
- OWASP
- CWE

To do so, you need to download/install the [Quality Standards Mapping extension](#) and then configure your dashboard:

#### Step 1 - Download and install the Quality Standards Mapping extension (com.castsoftware.qualitystandards)

- [Download an extension](#)
- [Install an extension](#)

**i** Note: please note that **Steps 3 and 4** in [Install an extension](#) are **NOT relevant** for the [Quality Standards Mapping extension](#). **Please skip them.**

#### Step 2 - Add the tile configuration to your deployed Dashboard

Modify (using a **text editor** - Notepad or other similar application) the following file that are part of your deployed dashboard:

- **CAST Security Dashboard:** %CATALINA\_HOME%\webapps\CAST-Security\security\resources\ced.json

Add the following plugin configuration to the file - this will create a tile called **CISQ-Security** that will display the number of violations of rules tagged as "CISQ-Security".

```
{
  "id": 213,
  "plugin": "QualityStandards",
  "color": "blue",
  "parameters": {
    "title": "CISQ-Security",
    "qualityStandards": {
      "id": "CISQ-Security",
      "format": "0,000",
      "description": "Violations"
    }
  }
},
```

You can use the following tags in the **"title"** and **"id"** parameters:

- CISQ-Security
- CISQ-Maintainability
- CISQ-Reliability
- CISQ-Performance-Efficiency
- OWASP
- CWE

Ensure that you save the files on completion.

### Step 3 - View the results

To view the new tiles, **refresh your browser**. If you do not see the tiles, you may need to **empty your browser cache**.
