

Manage uploaded extensions

- [Introduction](#)
- [Delete an uploaded extension](#)

i **Summary:** This section provides information about managing (editing details / deleting) a custom extension that you have uploaded.

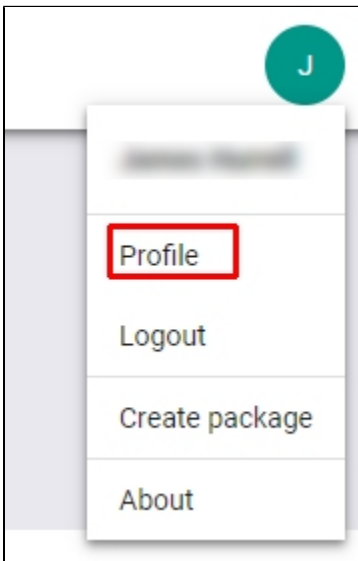

Introduction

When you [upload a custom extension](#), as the owner you have **full rights to manage that extension**. Therefore you can:

- Delete the uploaded extension so that the extension is no longer available for others
- View unlisted extensions, i.e. any uploaded extensions that have not yet been validated by a user with Moderator rights

Delete an uploaded extension

Deleting the extension will remove the entire extension from CAST servers. Please ensure that this is really what you want to do. Click **Profile** under your username:

Click **Publications**, find the extension you want to delete and then click the **Delete** button as highlighted below:
