

Using the CAST Security Dashboard

On this page:

 **Summary:** This page provides instructions for using the Security Dashboard, i.e. how to login, what information is available etc.

This documentation section provides the following information:

- How to connect and login to the Security Dashboard
- What sort of information is displayed in the dashboard
- A simple explanation of the dashboard interface

 If you need to know more about how to **deploy** the Security Dashboard, please see: [Deploy the CAST Security Dashboard](#).
