

# ExtendCli - Release Notes - 2.0

- [2.0.0-funcrel](#)
  - [Note](#)
  - [Other Updates](#)
  - [Resolved Issues](#)

## 2.0.0-funcrel

### Note

In order to continue to make use of the bundle creation features, this upgrade is required, otherwise bundle creation could fail unexpectedly due to new features and constraints introduced to <https://extend.castsoftware.com>

### Other Updates

Internal Id	Details
EXTENDCLI-2	Log Messages are now added to the bundle files for offline Extend configurations
EXTENDCLI-11	Support for Extend package restrictions to prevent restricted extensions from being added to to a bundle.

### Resolved Issues

Customer Ticket Id	Details
33834	Resolved an issuing causing dependencies that do not satisfy dependency requirements to be installed, instead of their correct versions.
33342	Fixed an issue that caused an error when reading nupkg archives.
