1.25.1-funcrel

Resolved Issues

Customer Ticket Id	Details
29047	Mismatch in count of deleted transactions in AEP report downloaded from Health Dashboard version 1.17 and 1.24

1.25.0-funcrel

Feature Improvements

Summary	Details
HD - Auto-selection of snapshot while changing the business criteria and size indicators	Application level graphs are improved for better usability. Now, when you select a graph, the selected snapshot pointer moves to latest selected metric, and with latest snapshot.
HD - Size indicators - Change multi-selection to a single selection	The selection of size indicators feature is changed. With the new change, you can select any size indicator at a time, and can see the list of metrics which belongs to the selected size indicator.

Other Updates

Internal Id	Details
DASHBOARDS-3264	Background is blur when Dialog is open in Action Plan and Exclusion views
DASHBOARDS-3214	Download button hover CSS need to fix for all Violation Tables
DASHBOARDS-3209	Console error with Architecture model view
DASHBOARDS-3293	ED: Architecture models dependency arrows are not correctly oriented
DASHBOARDS-3299	HD: Disable the excel download icon when there is no AEP data available
DASHBOARDS-3263	Same tooltip "Download AEP data to a file" is displaying in functional and enhancement size views

Resolved Issues

Customer Ticket Id	Details
28339	Green IT index is displaying as TQI on HD application-level Health Measures screen
28144	Mismatch in removed violations count between dashboard (Dashboard open through CMS and WAR)
