Resolved issues

No customer bugs fixed in this release.

Updates - Engineering Dashboard

DASHBOARDS-1195 - Critical rule flag now displayed in some Miscellaneous Reports

The following [Miscellaneous Reports](#) have been modified to show the critical rule flag:

- List of removed violations
- List of new violations

This flag is displayed as a red dot:

Report Category		Report Type	
Miscellaneous Repor...		List of new violati...	
List of new violations			TOTAL QUALITY INDEX
RULE NAME	OBJECT NAME LOCATION	STATUS	!
Avoid accessing data by using the position and length	[c:\jenkins7_slave\workspace\CAIP_T ... T\Deploy\Big Ben\Presales\PROG-BATCH].COCPB10	added	●
Avoid accessing data by using the position and length	[c:\jenkins7_slave\workspace\CAIP_T ... \Deploy\Big Ben\Presales\PROG-BATCH].COVAB241	added	●

DASHBOARDS-1602 - Predefined Industry Compliance reports

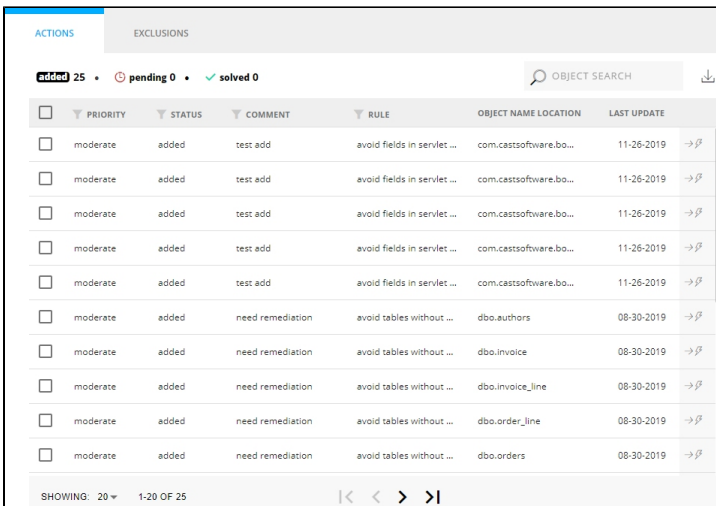

The list of available [Industry Compliance Reports](#) has been updated this release. New reports in this release:

OWASP-Mobile-2016 Compliance Report
CWE (2011) Top-25 Compliance Report
CWE (2019) Top-25 Compliance Report
OMG-ASCQM Compliance Report
OMG-ASCQM Security Compliance Report

DASHBOARDS-1413 - UI update for the Action Plan

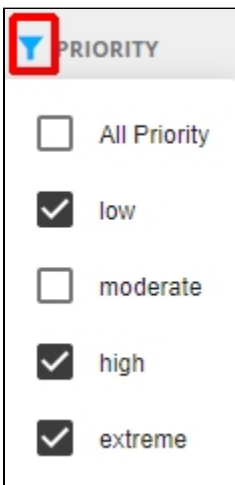

Some aspects of the [Action Plan](#) have been updated to provided a better end-user experience:

Click to enlarge

The screenshot shows the 'ACTIONS' tab of the Action Plan dashboard. At the top, there are status indicators: 'added 25', 'pending 0', and 'solved 0'. An 'OBJECT SEARCH' field is also present. The table below has columns for 'PRIORITY', 'STATUS', 'COMMENT', 'RULE', 'OBJECT NAME LOCATION', and 'LAST UPDATE'. The 'PRIORITY' column is highlighted with a dropdown arrow, indicating it is filterable. The table contains 10 rows of data, each with a checkbox in the first column and a beta icon in the last column. At the bottom, there is a pagination control showing 'SHOWING: 20' and '1-20 OF 25'.

Users can now filter the Action Plan table based on the **Priority**, **Status**, **Comment** and **Rule** columns (multiple filter criteria). For example, it is now possible to select a **single filter criterion** or **multiple filter criteria in one column or multiple columns**. There is a new icon in the table header to trigger the filter dropdown:

At the bottom of the list of violations in the Action Plan there are now improved options for pagination of items:

<input type="checkbox"/>	moderate	added	need remediat...	avoid tables wi...	db
<input type="checkbox"/>	extreme	added		avoid using sql...	db
SHOWING: 20 ▾ 1-20 OF 25 < < > > 					

The **Showing** option allows you to view violations in groups of **20**, **100** or **all violations**:

high	added	solucionar
high	added	solucionar
SHOWING: 20 ▾ 100 ▾ 795 ▾ 201-300 OF 795		

The arrow icons allow you to move through the violations:

<	Return to the very first page of violations.
<	Go back one page, depending on the number of violations chosen for display.
>	Go forward one page, depending on the number of violations chosen for display.
>	Go straight to the very last page of violations.
