2.3.1-funcrel

New Features

Summary	Details
HD - create a link in home page for portfolio trends view	A new icon added to reach portfolio trends page. Refer: https://doc.castsoftware.com/display/DASHBOARDS/Health+Dashboard++GUI

Feature Improvements

Summary	Details
Support for new CTDM extension	Dashboard has been updated to provide improved display for results generated by the OMG Technical Debt extension, v 2.x (Refer: https://doc.castsoftware.com/display/TECHNOS/OMG-CTDM++2.0): the Engineering Dashboard now includes (out of the box) a "Technical Debt (OMG)" tile. By default this tile shows ISO-5055 index data, but it can be manually configured to show TQI or CISQ Index data if necessary. The Health Dashboard also provides "Technical Debt (OMG)" tiles using ISO-5055 Index data out of the box and these can also be configured to use TQI or CISQ Index data.

Other Updates

Internal Id	Details
DASHBOARDS-3992	HD - snapshot threshold parameter is wrong in FE condition
DASHBOARDS-3950	Session alert dialog box displays the time left seconds in negative.

Resolved Issues

Customer Ticket Id	Details
32142	Bookmarked source code is in yellow color for Critical Violations

2.3.0-funcrel

New Features

Summary	Details
Dashboards updated in preparation for new release of the OMG Technical Debt extension	The Dashboards have been updated in preparation for a new release of the OMG Technical Debt extension which will measure Technical Debt using CTDM (Contextual Technical Debt Measure) - a union of AIP and ISO metrics.
UI - Improvements to the Roles/Data Authorization interface	The Roles and Data Authorization interface has been updated to include the ability to assign roles/data authorizations to a "Profile". Profiles (containing the roles and data authorizations) are then assigned to users/groups directly. See https://doc.castsoftware.com/display/DASHBOARDS/User+roles++2.x+and+above and https://doc.castsoftware.com/display/DASHBOARDS/Data+authorization++2.x+and+above .

Feature Improvements

Summary	Details
HD - tiles drilldown is not selecting correct graph on y-axis.	Details graphs are now showing correct metrics.

Other Updates

Internal Id	Details
DASHBOARDS-3940	AIP Console: Cannot display Dashboard with a JVM > 8
DASHBOARDS-3933	Cannot PUT domains-bindings when all domains have been aborted
DASHBOARDS-3926	Update (correct) the error message for "become admin" failure from other machine.
DASHBOARDS-3913	HD: Unable to add tags in static/tags.html page - 1.x & 2.x
DASHBOARDS-3906	Integrated mode and zip do not work any more
DASHBOARDS-3909	DATAMART: Fix USR_EXCLUSIONS extraction
DASHBOARDS-3908	DATAMART: Optimize app-findings-measures extraction

Resolved Issues

Customer Ticket Id	Details
32072	Dashboard is not accessible after setting a search filter in main page after login.
32040	Tree-View Edit area is not available in Dashboard for tags customization.
31722	Dashboard fails to start when CSS is configured in SSL mode.
31816	In HD 2.1.0 version, the Appmarq insight say "out of date" with latest file updated.
31584	Re-using the cast_dashboards schema across two dashboards is not working correctly.
31626	Unable to delete the last tag in tag administration page.

Known Issues

Internal Id	Details
DASHBOARDS-00000	The Health Dashboard in this release cannot correctly display results from the OMG Technical Debt extension v 1.x (https://doc.castsoftware.com/display/TECHNOS/OMG-ATDM++1.0). The two "Technical Debt (OMG)" tiles provided out of the box in the Health Dashboard will display "N/A" or "no value" as values.
