1.22.1-funcrel

Resolved Issues

Customer Ticket Id	Details
26763	The ED "Application Components" Tile is not loading for the application

1.22.0-funcrel

New Features

Summary	Details
ED: In Risk investigation view applied filter section has been added and changed the filter icon	A new section, "Applied filter" is added in Risk investigation view, it shows the filter/s that are selected. If no filter is selected then "Applied filter" section is not displayed. Refer: https://doc.castsoftware.com/display/DASHBOARDS/Engineering+Dashboard++Risk+Investigation#EngineeringDashboardRiskInvestigation-Filtering

Feature Improvements

Summary	Details
ED: Change parameter names for "IndustryStandardsKeys" object in ed.json file	Default configuration of industry standard has been updated with a name instead of metric ID. For example, CISQ industry standard is configured as: "CISQ": ["1062100", "1062101", "1062102", "1062103", "1062104"]

Other Updates

Internal Id	Details
DASHBOARDS-2926	ED: Module and technology filter should get close after selection is done
DASHBOARDS-2909	ED: Title has disappeared from ED when integrated in console
DASHBOARDS-2892	ED: Architecture model - doesn't get filtered on module selection
DASHBOARDS-2778	ED: ED displays a newly added business criteria as new assessment model
DASHBOARDS-2706	ED: Architecture model - numbers are not aligned in Firefox
DASHBOARDS-2029	ED: Rules table is getting refreshed in transaction investigation view when clicking on rules

DASHBOARDS-1851	ED: List of removed violations: Critical column is inverted
DASHBOARDS-1456	ED: Transaction is not displaying for robustness when you navigate from transaction view to application investigation

Resolved Issues

Customer Ticket Id	Details
23171	Snapshot is stuck due to a blocked query

1.22.0-beta2

Feature Improvements

Summary	Details
Highlight the selected Module on Module treemap section	When the user selects the modules from module selector, Specific module will be highlighted with a border in module treemap section
Change parameter names for "IndustryStandardsKeys" object in app.json file	Default configuration of industry standard has been updated with a name instead of metric ID. For example, CISQ industry standard is configured as: "CISQ": ["1062100", "1062101", "1062102", "1062103", "1062104"]

Other Updates

Internal Id	Details
DASHBOARDS-2877	HD-Redesign: Icon on chart's tooltip is not visible for IE
DASHBOARDS-2807	HD-Redesign: CastOnCast: Graph is incomplete for compliance filter
DASHBOARDS-2777	HD-Redesign: 'Add to compare' button is disabled for multiple snapshots with same date
DASHBOARDS-2555	HD-Redesign: Tile should display N/A instead of 0 if the application doesn't have ATDM extension installed
DASHBOARDS-2298	HD-Redesign: ATDM trends view: incorrect tooltip is getting displayed if the application does not have ATDM data
DASHBOARDS-2925	HD-Redesign: Drilldown from module treemap tile should scrolled to module treemap section
DASHBOARDS-2968	HD-Redesign: snapshot version dates are shifted by 1day
DASHBOARDS-2973	HD-Redesign: Tooltip alignment issue on hover on table header
DASHBOARDS-2919	HD-Redesign: HD to ED drilldown is with wrong snapshot selected
DASHBOARDS-2920	HD-Redesign: Clicking on a node in custom tile leads to blank page
DASHBOARDS-2931	HD-Redesign: Criteria should be disabled for custom trends page
DASHBOARDS-2934	HD-Redesign: Similar name custom tiles are leading to single graph.
DASHBOARDS-2948	HD-Redesign: Y-axis value should be dynamic for grade , compliance
DASHBOARDS-2950	HD-Redesign: OMG tech debt table details not changing based on snapshot changes
DASHBOARDS-2951	HD-Redesign: Industry standard BC tile drill down not handled other than Index
DASHBOARDS-2952	HD-Redesign: IE - tile drill down not working
DASHBOARDS-2953	HD-Redesign: Custom tile drilldown showing same values in graph for all
DASHBOARDS-2891	HD-Redesign: In Sizing measure API, IDs are getting passed multiple times
DASHBOARDS-2890	HD-Redesign: Drill down to ED from rules in other assessment model is wrong
DASHBOARDS-2888	HD-Redesign: Sorting not working for technology column in table.
DASHBOARDS-2880	HD-Redesign: Variation for the initial snapshot should be N/A
DASHBOARDS-2879	HD-Redesign: Appmarq quartile displays 0 when you filter the criteria by technical criteria or rule

Resolved Issues

Customer Ticket Id	Details
25533	Snapshot Comparison is not loading properly in case using filtering on Home page

1.22.0-beta1

Feature Improvements

Summary	Details
Health Dashboard: Complete redesign of single Application level drill down.	The number of tabs available in drill down has been reduced to simplify the display of data. All, drill down detail pages contain the new trends graph, followed by the detailed information sections (Quick Facts, Risk Profile, Technical Sizing info, Module Treemap, Snapshot Comparison) for the selected graph and snapshot. The new design aims to provide all information in a single page to simplify investigation.
