

CAST Engineering Dashboard CED

*Table of Contents

Select the section you are interested in:

This section groups the pages that are applicable to "FRAME_PORTAL_COMPLIANCE_VIEW", for more information about this view please see the following official documentation: [FRAME_PORTAL_COMPLIANCE_VIEW - Compliance - Application Level](#)

This section groups the pages that are applicable to "FRAME_METRIC_DETAIL", for more information about this view please see the following official documentation: [Metric Detail page](#)

- [CAST Engineering Dashboard - Information - Violation definition](#)

This section groups the pages that are applicable to "FRAME_PORTAL_TECHNOLOGY", for more information about this view please see the following official documentation: [FRAME_PORTAL_TECHNOLOGY_VIEW - Compliance - Technology Level](#)

This section groups the pages that are applicable to "FRAME_PORTAL_INVESTIGATION_VIEW", for more information about this view please see the following official documentation: [Investigation - Quality Model Drilldown](#)

- [CAST Engineering Dashboard - Information - How to calculate the Risk Propagation Factor of an object for Robustness Performance or Security Violation](#)
- [CAST Engineering Dashboard - Information - How to calculate variation displayed in INVESTIGATION VIEW](#)
- [CAST Engineering Dashboard - Information - Scope - Total checks for quality rule - Avoid Artifacts with a Complex SELECT Clause](#)
- [CAST Engineering Dashboard - Information - How to get the list of quality rules that support bookmarks](#)

This section groups the pages that are applicable to "FRAME_PORTAL_TRANSACTION_VIEW", for more information about this view please see the following official documentation: [Risk Indicators - Transaction Level](#)

- [CAST Engineering Dashboard - Information - How to get full object name on transaction view](#)

This section groups the pages that are applicable to "FRAME_PORTAL_RISK_VIEW", for more information about this view please see the following official documentation: [FRAME_PORTAL_RISK_VIEW - Assessment - Application Level](#)

- [CAST Engineering Dashboard - Information - How to compute the metric grade at application level](#)
- [CAST Engineering Dashboard - Information - How to compute the metric grade at module level](#)
- [CAST Engineering Dashboard - Information - How to compute the metric grade at system level](#)

This section groups the pages that are applicable to "FRAME_PORTAL_FAQ_EXCLUSION":

- [CAST Engineering Dashboard - Information - Abnormality in Last update column value in the report List of Objects Excluded from Quality Rule Computations](#)
- [CAST Engineering Dashboard - Information - What should be the content of the exclusion list when a previous snapshot is deleted](#)

This section groups the pages that are applicable to "FRAME_PORTAL_HOME_PAGE_SYSTEM":

- [CAST Engineering Dashboard - Information - Activating and using the JAVA Applets](#)

This section group the pages that are applicable to "FRAME_PORTAL_EVOLUTION_VIEW", for more information about this view please see the following official documentation: [Evolution - Quality and Size](#)

- [CAST Engineering Dashboard - Information - Quantities definitions of Evolution view](#)
- [CAST Engineering Dashboard - Information - What is the impact on Function Point evolution when analysing the code in the backward order](#)

This section groups the pages that are applicable to "FRAME_PORTAL_ACTION_PLAN", for more information about this view please see the following official documentation: [FRAME_PORTAL_ACTION_PLAN - Improvement - Action Plan](#)

- [CAST Engineering Dashboard - Information - What should be the content of the action plan when a previous snapshot is deleted](#)

This section groups the pages that are applicable to "FRAME_PORTAL_FAQ_VIEW1_6_":

- [CAST Engineering Dashboard - Information - Investigation Gap computation in Reports - 50 Rules with Highest Improvement Opportunity](#)

This section groups the pages that are applicable to "FRAME_PORTAL_QUICKACCESS_ADG", for more information about this view please see the following official documentation: [Quick Access](#)

- [FRAME_PORTAL_QUICKACCESS_ADG](#)

This section groups the pages that are applicable to "FRAME_PORTAL_CONTENT_EVOLUTION", for more information about this view please see the following official documentation: [FRAME_PORTAL_CONTENT_EVOLUTION - Compare Versions](#)

This section groups the pages that are applicable to "FRAME_PORTAL_ORGANISATION_VIEW", for more information about this view please see the following official documentation: [FRAME_PORTAL_ORGANISATION_VIEW - Assessment - Team Level](#)

This section groups the pages that are applicable to "FRAME_HOME_ADMIN_USERS":

- [CAST Engineering Dashboard - Information - Create new user on dashboard](#)

This section groups the pages that are applicable to several views:

- [CAST Engineering Dashboard - Activating ADG Dashboard or CED logs](#)
- [CAST Engineering Dashboard - CSS Postgres - How to close inactive connection in dashboard - CAST Confidential](#)
- [CAST Engineering Dashboard - CSS Postgres - How to close inactive connection in dashboard - CAST Confidential](#)
- [CAST Engineering Dashboard - Information - Configuring Dashboard to get the log visible on each page of the dashboard](#)
- [CAST Engineering Dashboard - Information - Configuring Dashboard to show the retriever name](#)
- [CAST Engineering Dashboard - Information - Configuring Dashboard to SQL trace](#)
- [CAST Engineering Dashboard - Information - Configuring the use of Web server datasources by the AD Dashboard- CAST Confidential](#)
- [CAST Engineering Dashboard - Information - How to deploy a dashboard or Central base on a war of a different version - *Cast Confidential](#)
- [CAST Engineering Dashboard - Information - Resetting Password- CAST Confidential](#)
- [CAST Engineering Dashboard - Information - Get list of reports defined on central site and their parameters](#)
- [CAST Engineering Dashboard - Information - Getting the Web.xml file](#)
- [CAST Engineering Dashboard - Information - Setting objects as external](#)
- [CMS Snapshot Analysis - Run Analyzer - Information - List of inputs required to reproduce issue related to one particular object](#)
- [CAST Engineering Dashboard - Information - How to identify and execute SQL query involved in data display](#)
- [CAST Engineering Dashboard - Information - How to update a Central Database for missing cost information](#)
- [CAST Engineering Dashboard - Information - Complex objects interpretation in the dashboard](#)
- [CAST Engineering Dashboard - Information - How to Identify query leading to missing or wrong data and graph in the AD Dashboard page](#)
- [CAST Engineering Dashboard - Information - Mismatch in the Violations counts between Assessment Portfolio level and Compliance Technology level](#)
- [CAST Engineering Dashboard - Information - Definition of Form objects in a .NET application](#)
- [CAST Engineering Dashboard - Information - LOC for technologies in left menu do not add up for previous snapshots](#)

This section groups the pages that are applicable to "FRAME_PORTAL_CONNECT_ADG":

- [CAST Engineering Dashboard - Information - How to customize the login Screen to show additional Information](#)

***Observed in CAST AIP**
