VB Analysis Unit editor - Source Settings tab

This section provides a detailed description of the specific **Source Settings tab** in the **VB Analysis Unit editor**:

The screenshot shows the 'Source Settings' tab of the 'BookDemoDII' analysis unit editor. The interface includes a title bar with the window name and a close button. Below the title bar, there are three tabs: 'Source Settings' (selected), 'Analysis', and 'Execute'. The 'Source Settings' tab contains the following fields:

- Name:** BookDemoDII
- Analysis Unit description:** (empty)
- Project Path:** X:\CAST\MSSQL\DEPLOYMENT\TEST\VB_CASTPUBS\VB_CASTPubs\BookDemoDII.vbp
- Visual Studio Project File:** X:\CAST\MSSQL\DEPLOYMENT\TEST\VB_CASTPUBS\VB_CASTPubs\BookDemoDII.vbp

Source Settings tab

Project path	The file based location of the corresponding project. This field is read-only.  Notes <ul style="list-style-type: none">When the field contains User defined, this indicates that the Analysis Unit has been defined manually instead of automatically following the use of the CAST Delivery Manager Tool.
Visual Studio Project File	Indicates the .vbp file that is defined as the Project File for the Analysis Unit for analysis purposes. If this Analysis Unit is automatically defined, then this field is read only.
