

# CAST Engineering Dashboard - Report Builder

## Purpose

This page helps to troubleshoot issues with Report Builder.

The Report Builder lets end-users to define their own reports based on existing content of the CAST Engineering Dashboard. Building a new report consists of:

- Giving the report a name and an ID
- Declaring its content as a list of sections to display in a sequential manner
- Declaring the parameters to drive these sections, such as the title to use for the section, the Snapshot or Application to look at (note that all sections feed on their own list of parameters so this list dynamically varies)

For more information please refer to the page - [Using the Report Builder](#)

Official Documentation

For 8.3 : [Using the Report Builder](#)

Information Guides

[Information Guides by CAST AIP Component > Report Generator](#)

## Observed in CAST AIP

Release	Yes/No
8.3.x	✓

## Observed on RDBMS

RDBMS	Yes/No
CSS	✓

## Action Plan

1. Select the section you are interested in.
  - [CAST Engineering Dashboard - Report Builder - Generate PDF report](#)
  - [CAST Engineering Dashboard - Report Builder - Generate PDF report - Error - Unable to use HTTPs to generate PDF reports](#)
  - [CAST Engineering Dashboard - Report Builder - Generate PDF report - Missing data in report - Empty PDF report](#)
  - [CAST Engineering Dashboard - Report Builder - Generate PDF report - Missing data in report - Incorrect content of the report](#)
2. If the problem you are facing does not match any case listed in this page, report your problem to [CAST Technical Support](#) and provide the below [Relevant input](#)
