

Administration Center - Settings - License Key

This section is **NOT visible** when the following is true:

- when you are using **Console 2.2** AND when a **Named Application license key** scope has been chosen in [Complete start-up wizard - v. 2.x](#)

The section is visible when the following is true:

- when you are using **Console 2.1**
- when you are using **Console 2.2** AND when a **legacy license key** or a **Contributing Developer license key** is being used.

^ License Key

Name	Type
CAST_R&D	aip_efp
License Key *	
CAST_R&D:1;AIP/EFP:20200930:WZWHWYXY	

Expires in 2 months 29 days

UPDATE

When you [Complete start-up wizard - v. 1.x](#) or [Complete start-up wizard - v. 2.x](#) for the Console package, you will be requested to enter a global **license key**. This key grants a license for all Nodes managed by Console. This license key is displayed in the License Key section. A key can be updated if required - when any type of job is launched in Console the new key will be propagated.

Name	Organization granted the license key (read only - determined by the license key).
Type	Type of license key (read only - determined by the license key).
License Key	License key (this field can be updated - click the Update button to apply the new key).
Expiry	Date the license expires (read only - determined by the license key).
