

# External Links tile

External Links tile (not available by default) provides the ability to define external URLs ( to e.g. other data dashboards) in a tile:

## Configuration

- **type**: tile type, has to be *ExternalLink*
- **parameters**
  - **title** the short message to display in tile
  - **url** the hyperlink to follow
- **color** : tile color
- other parameters for sizing and positioning of the tile - see [Tile Sizing and Positioning](#)

## Example
