

# ENL - Links

## Links

---

When a project is analyzed and stored in the **Knowledge Base**, the various links between the project's constituent objects and components are also registered. Enlighten is capable of representing this link information in the [Graphical View](#) through a series of arrows and abbreviations.

This help section provides a reference guide to all the link abbreviations that Enlighten is capable of rendering. Select a link below to find out more:

- [Link Colors](#)
- [Escalated Links](#)
- [Belongs To Links](#)
- [Link Examples](#) - a list of all link types including code examples.
- [Link Types](#) - an .XLS file containing a list of all link types that can be displayed by Enlighten.

You may receive a warning dialog box when trying to access this file. This warning dialog will ask you whether you want to Open or Save the file - please select the option that is most convenient for you.
