## Export action

To export, use the **export icon** in the left hand [User Guide - GUI - Investigate panel](#):

**Investigate** <<

**Perimeter**

Scope  ▾

Select  ▾

**Perspective**

Aggregated by  ▾

Levels  ▾

**Arrange Display**

Graph Layout  ▾

**Graph Options**

 ADD A DOCUMENT VIEW

 HIDE EXTERNAL LIBRARIES

 HIDE ISOLATED NODES

 EXPORT ALL OBJECTS AND LINKS

Then choose the export format - a file in the selected format will then be downloaded automatically in your browser:

**Select Export Option**

**CANCEL**
