 - [Note](#)
 - [Other Updates](#)

1.4.0

Note

Silverlight 1.4.0 is released as an LTS (Long Term Support).

Other Updates

Details
A new set of object icons has been delivered with this release of the extension. (For "Objects icons" details refer: https://doc.castsoftware.com/display/TECHNOS/Silverlight++1.4).
No links between property and the xaml control. Links between property objects and xaml controls will now be resolved as expected.
