<a href="#">WPF - Windows Presentation Foundation (now replaced by .NET XAML)</a>	com.castsoftware.wpf <ul style="list-style-type: none"> <li>• (1.0 - 1.4) &gt; - see <a href="#">WPF - Windows Presentation Foundation</a> for more information.</li> <li>• &gt; 2.0 - see <a href="#">.NET XAML</a> for more information.</li> </ul>	

## Discovery / Extraction support

Extension	Extension ID	Shipped with AIP Core?
<a href="#">Microsoft Visual Studio .NET Discoverer</a> *	See note below.	
<a href="#">NuGet Resources Extractor</a>	com.castsoftware.dmdotnetnugetresourcesextractor	

"Discoverers" marked with a "\*" are not currently provided as extensions: instead they are embedded in AIP Core and are therefore present "out of the box".
