

# Engineering Dashboard - Report Generation - Miscellaneous report error

## Purpose (problem description)

This page helps you to resolve the issue you may encounter during generation of Miscellaneous report in dashboard as shown below:

Reports

Report Category **Miscellaneous Repor...** Report Type **Top rules with the ...**

**Top rules with the highest improvement opportunities**

*Internal Error - Corrupt data.*

## Observed in Dashboard Package version

Release	Yes/No
1.x	✓
2.x	✓

## Observed in RDBMS

RDBMS	Yes/No
CSS	✓

## Step by Step scenario

1. Run analysis+snapshot
2. Launch Dashboard
3. Try to generate Miscellaneous report from dashboard

## Action Plan

If you come across the above error during the generation of Miscellaneous report in dashboard then, please perform the below actions:

1. Take a snapshot skipping analysis
2. If it is not resolving the issue then you might need to check if there is any corrupted metric involved in your application result. You can check that by running the query mentioned in [Query](#) on central base. This query will provide the corrupted metric name and id.
3. If you find any metric as a result of the above query then please deactivate that particular metric from assessment model and take a snapshot skipping analysis.
4. If the above steps do not solve your issue contact [CAST Technical Support](#). with the following [Relevant input](#)

## Relevant input

- [CAST Support Tool \(CST\) - alias Sherlock](#) export with the following options **Export CAST Bases** with Management Base, Knowledge Base, Central base.
- Screenshot showing the error
